

Jason Buoni

Software Engineer

Who am I?

I am a polyglot developer with a Masters in Computer Science. I focus on full-stack development and enjoy learning about cyber security principles and machine learning. I also have experience with big data as well as DevOps.

Certifications

Scrum Certification, 2016 Scrum Alliance

Experience

September 2019 - Present

Honeywell, Atlanta GA

Senior Software Engineer

- Using TypeScript, I develop and maintain Honeywell Forge Platform APIs and CLI tools used to produce IoT applications.
- Assist in DevOps related tasks using Docker, Kubernetes, Openshift, as well as other deployment tools.

May 2015 - September 2019

Turner Broadcasting Inc., Atlanta GA

Senior Software Developer

- Developed backend and frontend services used to transfer video files and metadata to CNN and Turner internal systems around the world.
- Worked as a member of a scrum team for multiple high visibility projects including the Elections System and Content Supply Chain.
- Worked with multiple languages and frameworks throughout the day such as NodeJS, React, Scala, Java, Python, and MongoDB.
- Assisted in DevOps related tasks using Chef, AWS, and Jenkins.
- Created a new tracking system as a side project using Scala and Akka. Project was deployed internally and replaced multiple legacy systems.
- Spearheaded mentorship program for my department, which was incorporated to all intern positions for the GTO Tech Intern program.

June 2013 - May 2015

Westat, Atlanta GA

Programmer Analyst

- Developed backend and front end services used to monitor and analyze large amounts of data.
- Worked with multiple languages and databases including C#, Java, Android, JavaScript, JQuery, SQL, PostgreSQL, MySQL, and SQLite.

December 2012 – May 2013
